About WebRift

Practical digital tools for the businesses on your high street

WebRift builds WhatsApp-first websites, Google visibility, loyalty tools and monthly check-ups for local shops. Most South African customers already chat to businesses on WhatsApp, so we build around that habit instead of pushing owners onto expensive point-of-sale systems or monthly SaaS platforms. More than 60% of our clients are vape shops, so we offer a vape storefront with add-on tools, plus three packs made for vape stores. Everything is built on lightweight, low-cost tools, which keeps our prices fair.

Storefront plus add-ons

One website for the shop, then add what it needs: finders, click-and-collect, loyalty.

Found on Google

Maps, profiles and reviews so nearby customers choose the shop first.

Checked every month

A Health Check and Monthly Growth Report show how the shop compares to competitors.

Owner-focused

Cash, stock and warranty control for owners who can't be in the shop.

How to read the prices

Market low / avg / high	Cheapest, midpoint and top price for a comparable service (your research plus ProCompare).
WebRift suggested	Our recommended starting price. You and your marketer make the final call.
Setup	Paid once, to build and launch the thing.
Monthly	Paid every month to keep it running (hosting, updates, support, automations). Where our research had no market monthly price, the range shown is our estimate.
Adoption / Rating	How likely a pitched shop is to say yes, and our 10-point score for profit, effort and value.

Terms (suggested)

- 50% deposit to start (or setup in 3 instalments on packs), balance on delivery. Monthly plans are billed in advance, with a 6-month minimum and then 30 days' notice.
- Prices exclude VAT (if registered) and third-party costs: domain and mailbox renewals, WhatsApp message fees and print runs.
- Anything that collects customer numbers needs clear opt-in consent and a privacy notice in line with POPIA.
- Free monthly edits on packs are small changes of about 15 minutes each, up to 5 a month, and do not roll over. Bigger work is quoted.
- Estimates are guides, not guarantees.

How You Pay

Setup, monthly and yearly: what each one means

1 Setup

paid once

We build and launch it: the website, the finders, the profiles, the automations. You pay this once.

2 Monthly

every month

Keeps it running: hosting, updates, support, messages and reports. This is our recurring income.

3 Yearly

domain and email only

Domain renewal and email mailboxes are billed once a year, at cost, by the provider. Nothing else bills yearly.

Worked example: Vape Pro

What a vape shop pays in year one

R5,500	+ R650/mo	= R13,300
Setup	**Monthly**	**Year-1 total**
once, month 1	x 12 months = R7,800	setup + 12 months

Optional: prepay the 12 monthly fees up front and get 2 months free: R12,000 for year one instead of R13,300, a saving of R1,300.

Questions owners ask

Why is setup so low?
We keep setup affordable so small shops can start. The monthly fee covers hosting, support, free edits and improvements. Setup on packs can be paid in 3 instalments.

Is there a cheaper 'annual' price instead of setup?
No. Setup is always paid once. The only yearly option is prepaying the monthly fees for 2 months free.

Do I have to pay monthly?
The storefront, loyalty card, review manager, VIP list and reports need a monthly plan because they run and send things every month. Quick wins like Google Maps, photos and posters are once-off.

What if I cancel?
The site stays ours to host; we hand over files for once-off items, and monthly services stop at the end of the notice month.

Who pays for the domain and email?
The shop does, at cost, directly to the provider. We set it all up for you.

Packs

Low setup, one monthly plan. Three are made for vape stores, two for any shop, plus an add-on combo

1 Vape Starter

VAPE SHOPS

Get online and get found

The essentials for a vape shop to look professional, take orders on WhatsApp and be found on Google.

WHAT'S INCLUDED	TYPICAL MARKET	WEBRIFT ALONE
Website Storefront, vape edition	R8,000 + R600/mo	R4,200 + R500/mo

Repeat Combo	**R18,750**	**R9,200**	**R7,100**	**R11,650**	**R2,100**

How it is worked out. Market = the average of the low and high prices on each product card (setup) plus the average monthly price, for 12 months. Separately = our own suggested prices for each item, without pack discounts or free edits. Year 1 = setup + 12 months of the monthly fee. The free bonuses and free edits are extra value and are not counted in the savings above. Estimates, not quotes.

Why we keep setup low

Small shops will not pay R9,000 up front, and most will happily pay R250 to R800 a month for something that keeps working. A low setup gets the shop on board quickly, the monthly plan pays for support and improvements, and a shop that stays for a year pays WebRift far more than a one-off project would.

What Your Monthly Fee Covers

WebRift Care: why a monthly plan is worth it, and what free edits mean

Every monthly plan

- Secure hosting and uptime checks
- Software and plug-in updates
- WhatsApp order link kept working
- Backups of the site
- Support by WhatsApp, reply within 1 working day
- Small fixes if anything breaks

Packs also get

- Up to 5 free edits every month (worth up to R600)
- Priority support queue
- Monthly report on visits, orders and reviews (Complete and Online Shop)
- Lower monthly price than separate services
- Free bonuses in the first month
- Setup in 3 instalments

What counts as an edit?

FREE EDIT (small change, about 15 minutes)

- Change a price or product name
- Swap a photo or banner
- Update opening hours or a notice
- Add a new flavour or device to a finder
- Fix a typo or link

QUOTED SEPARATELY (a new piece of work)

- A new page or section
- A new feature or finder
- A new shop location
- A full photo shoot or brand refresh
- Anything over about an hour

Worth it?

A shop without a pack pays R120 for every small change. A vape shop changes prices, deals and stock lists weekly, so five edits a month is R600 of work. The Vape Pro monthly fee is R650, and it already includes those edits, hosting, support and the finders. Unused edits do not roll over. Extra edits are R120 each.

Monthly plans run for a minimum of 6 months, then month to month with 30 days' notice. Prices exclude VAT and third-party costs (domain, mailboxes, WhatsApp message fees).

Built for Vape Stores

60% of our clients are vape shops. Here's what they need, and what to watch

What vape shops buy most (our read)

- Customers are repeat buyers (weekly juice, coils and pods), so loyalty and restock messages earn more here than in most shops.
- The counter questions are 'what fits my device?' and 'what flavour should I try?', so the Coil & Pod Finder and Flavour Finder save staff time.
- Owners lose money on faulty coils and dead flavours: the Stock & Warranty Tracker and Monthly Growth Report pay for themselves.

Compliance and platform checklist

Law is changing	The Tobacco Products and Electronic Delivery Systems Control Bill was not yet law at the last check (committee stage, June 2026). It would ban vape advertising, promotion and retail displays. Our tools are the shop's own pages and normal chats, not ads, and are easy to adjust.
WhatsApp rules	Third-party guides say vapes cannot be sold through the WhatsApp Business API or the in-app catalogue. So the vape storefront is our own web page with an ordinary chat link, and we do not build AI bots on the Business API for vape shops. Confirm against WhatsApp's own current policy before launch.
Ad and social platforms	Meta, TikTok and Google restrict vape ads and promotion. So for vape shops, Profile Setup means information pages only, and we don't sell ad management. We rely on Google Maps, opt-in lists, loyalty and QR stands instead.
Age and consent	The 18+ pop-up, checkout confirmation, consent wording and ID-check reminder are in the 18+ Age Check & Consent Setup (#2). It is a self-declaration. The owner stays responsible for ID checks at collection or delivery.

This is a practical checklist, not legal advice. Ask the shop's attorney to confirm wording and local rules.

WEBSITE STOREFRONT & ADD-ONS

6 products

1 Website Storefront

Website Storefront & Add-ons

A fast mobile website that works as the shop's online store. Customers browse products, add to a cart and send the order straight to the shop's WhatsApp. The vape edition adds brand, flavour, nicotine and device filters, live stock badges and multi-buy deals (e.g. 3 juices for R450).

Why shops buy it: Customers stop scrolling through photos on WhatsApp, orders arrive complete and tidy, and the shop sells while the owner is busy. No card machine and no checkout fees.

INCLUDES

- Up to ~100 products loaded
- Mobile-first, fast design
- Hosting included
- Cart + WhatsApp order button
- Stock badges and deals
- Easy price and stock updates

Suggested R500/mo

Vape edition +R700. Monthly: hosting and support. Edits R120 each (free in packs).

Source: Your research + ProCompare

2 18+ Age Check & Compliance Setup

Website Storefront & Add-ons

A pop-up that asks visitors to confirm they are 18 or older before they enter the shop site, a tick-box at checkout, and consent wording on sign-up forms. Every order message carries an 'ID required at collection or delivery' line, and we supply print-ready counter signs.

Why shops buy it: It shows the shop takes under-18 sales seriously, keeps consent records tidy and makes marketing messages POPIA-friendly. It is a self-declaration, not proof of age, so real ID checks still happen at the counter or the door.

INCLUDES

- 18+ entry pop-up
- POPIA consent wording
- Print-ready counter signs
- Checkout age confirmation
- ID reminder in every order

ADOPTION 90% | VAPE FIT

3 Coil & Pod Finder

Website Storefront & Add-ons

The customer picks their device (brand, then model) and instantly sees the coils, pods and juices that fit it, each with an Order on WhatsApp button.

Why shops buy it: 'What fits my device?' is the most common counter question. The finder answers it 24/7, cuts wrong-coil returns and sells accessories the customer didn't know they needed.

INCLUDES

- Device-to-coil lookup
- Order button on every result
- Easy to update
- Up to ~150 products loaded
- Works on any phone

4 Flavour Finder

Website Storefront & Add-ons

A 5-question quiz (fruity, menthol, dessert, nicotine strength, device type) that recommends 3 products and records what customers ask for.

Why shops buy it: New customers get a confident pick instead of guessing, slow-moving flavours get pushed, and the shop learns which flavours people ask for but can't find.

INCLUDES

- 5-question quiz
- 3 product picks
- Order button on results
- Answers saved to a sheet

5 Click & Collect / Local Delivery

Website Storefront & Add-ons

Customers choose collect or delivery, pick their area (with delivery fee) and see an 'ID required at handover' note. The shop gets a clean order message and can send status updates.

Why shops buy it: It turns messy WhatsApp ordering into tidy orders with the address, fee and time already filled in, so there are fewer mistakes and fewer back-and-forth messages.

INCLUDES

- Collect or deliver choice
- Delivery areas and fees
- Clean order message
- Order log sheet
- Status update messages

ADOPTION 70%

6 Price-List Page (mini site)

Website Storefront & Add-ons

A single clean page with the shop's products and prices and a WhatsApp order button, without the full cart. Quick to build and easy to update from a phone.

Why shops buy it: A low-cost first website for tiny shops that can't afford a full storefront yet. It beats sending the same price screenshot to every customer, and it can be upgraded to a storefront later.

INCLUDES

- One mobile page
- Products and prices
- WhatsApp order button
- Hours and map link
- Your own link and QR

GET FOUND ONLINE

4 products

7 Google Maps & Local Listings

Get Found Online

We claim and verify the shop on Google Maps, set the correct pin, hours, categories, photos and keywords, and add it to Apple Maps, Bing and key local directories.

Why shops buy it: People searching 'vape shop near me' tap the top Google results. A verified, complete profile puts the shop in front of walk-in customers with no ad spend.

INCLUDES

- Google profile claimed and verified
- Photos and keywords
- Local directory clean-up
- Pin, hours and categories
- Apple Maps and Bing listings

8 Social & WhatsApp Profile Setup

Get Found Online

We create and polish the shop's business profiles on Facebook, Instagram, TikTok and WhatsApp Business: name, bio, logo and cover images, contact links, opening hours, quick replies and a simple starter content plan.

Why shops buy it: Customers look a shop up on social before they visit. A professional, consistent profile builds trust, and WhatsApp quick replies save the owner typing the same answers all day.

INCLUDES

- Profile creation and branding
- Links to site and WhatsApp
- Starter content plan
- Bio, logo and cover images
- WhatsApp greeting and quick replies

ADOPTION 80% | VAPE FIT Medium

RATING 8/10

ONCE-OFF MARKET

9 Domain, Hosting & Business Email

Get Found Online

We register the shop's own web address (e.g. yourshop.co.za), connect it to the website, and set up professional email (name@yourshop.co.za) on every phone and computer.

Why shops buy it: A .co.za address and matching email replace the @gmail.com look, make the shop look established to customers and suppliers, and keep the contact details under the owner's control.

INCLUDES

- Domain registration help
- Up to 3 mailboxes set up
- Set up so mail avoids spam
- Website and email connected
- Phone and laptop setup

ADOPTION 65% | VAPE FIT High

10 Countertop QR Stand

Get Found Online

A branded acrylic stand for the till with a QR code that opens the shop's website, WhatsApp chat or Google review page.

Why shops buy it: It is a physical, always-on prompt at the point of sale. Customers scan once and are in the shop's channel for good, and it collects Google reviews too.

INCLUDES

- Branded acrylic stand
- Artwork design
- Dynamic QR (can change later)
- Delivered ready to place

PHOTOS & DESIGN

2 products

11 Shop & Product Photography

Photos & Design

An on-site photo session with a ring light and clean backgrounds: product photos for the website plus shop-front, interior and team photos for the Google profile. Edited and delivered ready to upload.

Why shops buy it: Poor or supplier-stock photos lose sales and make the Google profile look neglected. Crisp, consistent photos lift website sales and Google profile views.

INCLUDES

- Up to 20 products shot
- Backgrounds cleaned up
- Delivered within 3 days
- Shop front and interior photos
- Web and Google-ready files

ADOPTION 80% | VAPE FIT High

RATING 8.5/10

12 Posters, Templates & Brand Design

Photos & Design

Print-ready posters and counter cards, editable post templates ('New Drop', 'Weekend Special', 'Price Slash') and, when the shop needs one, a simple logo or brand refresh.

Why shops buy it: Consistent, professional signs and posts make the shop look established, and the editable templates let staff post in minutes without paying a designer each time.

INCLUDES

- A2/A3 poster artwork
- 5 to 15 editable templates
- Print-ready files
- Counter cards
- Logo refresh (if needed)

ADOPTION 65% | VAPE FIT Medium

KEEPING CUSTOMERS COMING BACK

4 products

13 Digital Loyalty Card

Keeping Customers Coming Back

A loyalty card in Apple Wallet or Google Pay. The cashier scans the customer's phone and visits are tracked automatically (e.g. every 10th juice free). Customers who go quiet for 30+ days automatically get a 'We miss you' coupon.

Why shops buy it: Vape customers buy every week, so a card on their phone gives them a reason to choose this shop over the next one, and the win-back message brings lapsed customers back without the owner lifting a finger.

INCLUDES

- Wallet loyalty card
- Reward rules you choose
- Monthly visit count
- Scan-and-stamp at the till
- 'We miss you' coupon at 30 days

ADOPTION 80% | VAPE FIT

14 VIP Restock List

Keeping Customers Coming Back

A signup link that collects opted-in numbers by interest (brand, flavour, device) so the shop can message restocks and flash sales to exactly the right people.

Why shops buy it: When a hot flavour lands or a deal drops, the shop can fill the counter in an hour instead of hoping people see a post. It builds a customer list the owner owns.

INCLUDES

- Signup link and QR
- Opt-in consent saved
- Customer list in a sheet
- Interest tags
- Message templates

ADOPTION 80% | VAPE FIT

RATING 9/10 | High

15 Google Review Manager

Keeping Customers Coming Back

We ask happy customers for a Google review (QR or WhatsApp link) and use AI to draft and post polite replies to every review, good or bad.

Why shops buy it: More reviews and fast replies push the shop higher on Google Maps and show new customers the owner cares. A bad review answered well often wins the customer back.

INCLUDES

- Review request link and QR
- Owner approval option
- Monthly review summary
- AI-drafted replies
- Alert on bad reviews

ADOPTION 70% | VAPE FIT

RATING 9/10 | High

16 Social Media Management

Keeping Customers Coming Back

We run the shop's social pages: regular posts, community replies, optional paid-ad management and a monthly performance report.

Why shops buy it: Owners want to be visible but don't have time to post. Steady, professional content keeps the shop top of mind between visits.

INCLUDES

- Regular content and posting
- Ad management (optional)
- Strategy tweaks and tips
- Replies and community care
- Monthly analytics report

ADOPTION 60% | VAPE FIT Medium
RATING 7.5/10

MONTHLY MARKET

LOW	AVG	HIGH
R1,300	R4,700	R8,100

WEBRIFT SUGGESTED

R2,500 per month

Priced by scope: platforms and posts a month. Suggested price is a starting package. Vape shops: information-style content only; no ad management.

CHECK-UPS & REPORTS

2 products

17 Business Health Check

Check-Ups & Reports

A one-off review of the shop against 5 nearby competitors: Google rating and review count, photos, reply rate, website, socials and, where public, price position. The shop gets a score out of 10, a side-by-side comparison and a short action plan.

Why shops buy it: Owners rarely see how they stack up. The report shows exactly where they win, where they lose customers and what to fix first, so spending goes where it matters.

INCLUDES

- Score out of 10
- Google profile and review audit
- Action plan in priority order
- 5-competitor comparison
- Website and social review

ADOPTION 70% | VAPE FIT High
RATING 9/10

18 Monthly Growth Report

Check-Ups & Reports

Every month: rating and review count vs competitors, new reviews and replies, website and WhatsApp activity, top sellers and dead stock (when the Stock Tracker is on) and 3 recommended actions.

Why shops buy it: It proves the work is paying off, flags problems early, and gives the owner a simple plan each month, so they keep the service and keep growing.

INCLUDES

- Rating and review tracking
- Sales and stock highlights
- One-page PDF on WhatsApp
- Competitor movement
- 3 recommended actions

ADOPTION 70% | VAPE FIT High
RATING 9/10

MONTHLY MARKET

SHOP CONTROL

2 products

19 Stock & Warranty Tracker

Shop Control

One sheet tracking stock by brand, flavour, nicotine strength and size, with low-stock alerts to the manager's WhatsApp, reorder suggestions, and a log for faulty coils, pods and batteries with photos so warranty claims are never missed.

Why shops buy it: Running out of the best-seller loses sales on the spot, and unclaimed faulty stock is money left with the supplier. This keeps both under control.

INCLUDES

- Stock by flavour and strength
- Reorder suggestions
- Warranty claim tracking
- Low-stock WhatsApp alerts
- Faulty-stock log with photos

ADOPTION 75%
RATING 9/10

MONTHLY MARKET R200 – R500 (avg R350)

Suggested R210/mo

Merges the old stock tracker, low-stock button and defect log.

Source: Your research

20 Cash-Up & Till Theft Alert

Shop Control

Staff enter note counts and card totals at closing; the system compares them to the expected balance, logs variances and alerts the owner on WhatsApp when a shortfall is over R50. Expenses are logged in the same sheet.

Why shops buy it: Cash going missing is the owner's biggest worry when they aren't in the shop. Daily checking stops small leaks becoming big ones.

INCLUDES

- Closing cash-up form
- WhatsApp alert over R50
- Daily summary to the owner
- Variance log
- Expense logging

ADOPTION 85%
RATING 9/10

Optional Extras

Useful for some shops, but not for most. Quote on request

SERVICE	BEST FOR	LOW	AVG	HIGH	SUGGESTED
WhatsApp Booking Engine	service shops (barbers, tattooists)	R3,500	R5,250	R7,000	**R4,500 + R350/mo**
Short-Form Social Videos	per batch of 5 reels	R1,200	R2,100	R3,000	**R1,900**
In-Store TV Menu Board	price or menu screen	R2,500	R3,750	R5,000	**R3,500 + R350/mo**
In-Store Wi-Fi Data Capture	captive portal setup	R1,500	R2,500	R3,500	**R2,300**

From the original 40-product list. Fine to sell when a client asks, but we do not push them. Prices are from the original research; the average is the midpoint of low and high.

Business Health Check: Sample Report

What a shop receives. Example data for a fictional shop; real reports use the shop's real numbers

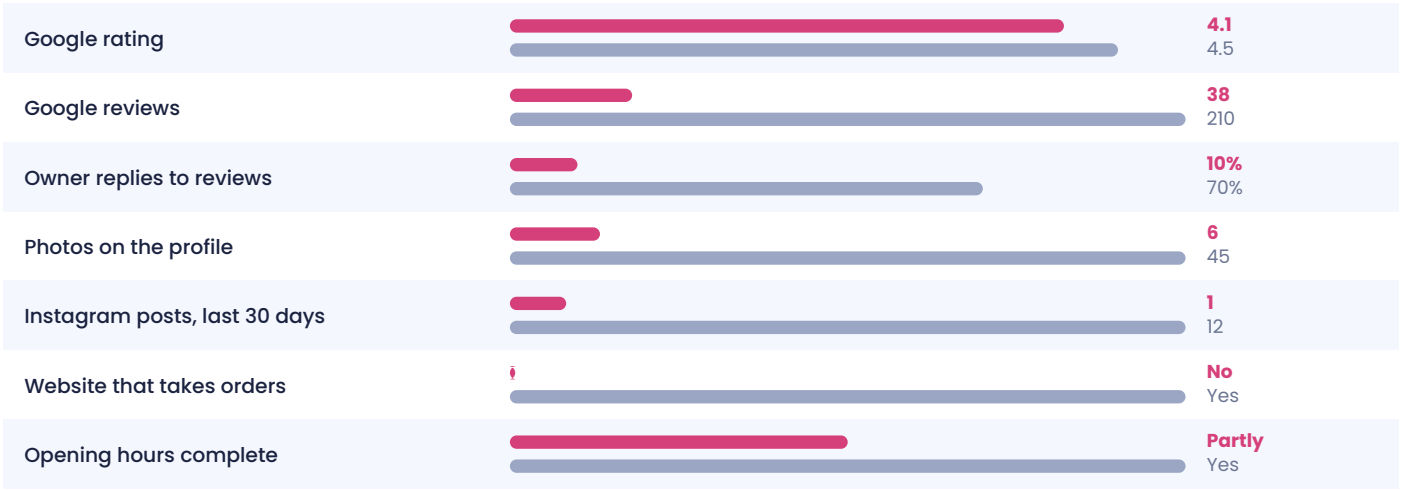

EXAMPLE VAPE LOUNGE

Compared with 5 nearby competitors | Sample data

Good bones, but customers can't see enough: few reviews, no replies, and no website to take orders.

5.8 / 10

How the shop compares

Pink = this shop Grey = average of the 5 competitors

Competitor snapshot (example)

COMPETITOR	RATING	REVIEWS	PHOTOS	WEBSITE	REPLIES	SCORE
Competitor A	4.6	340	60	Yes	80%	8.4
Competitor B	4.4	190	42	Yes	65%	7.6
Competitor C	4.5	120	38	No	75%	7.0
Competitor D	4.3	95	30	Yes	40%	6.6
Competitor E	4.7	230	55	Yes	90%	8.8

Top 3 actions (in order)

1. **Get more reviews**
   Put a QR stand at the till and message happy customers a review link. Aim for 100 reviews in 6 months.

2. **Reply to every review**
   AI-drafted replies, posted within a day. Competitors reply to 7 in 10.

3. **Launch an order page**
   A storefront or price-list page with a WhatsApp order button. 4 of 5 competitors already have one.

WebRift vs Other Options

How we compare with doing it yourself, an agency or a freelancer

	DIY BUILDER	TYPICAL AGENCY	FREELANCER	WEBRIFT
Setup cost	Your own time	R30,000 – R85,000	R6,000 – R25,000	**R2,200 – R7,000 (packs)**
Monthly cost	About R580 (Shopify Basic, domain, hosting)	R2,000 – R2,700 (maintenance)	R500 and up (maintenance)	**From R250, with free edits**
Time to launch	Weeks of your time	1 to 3 months	2 to 6 weeks	**Days**
Orders on WhatsApp	Needs extra apps	Rarely	Sometimes	**Built in**
Vape tools (age gate, finders)	You build or buy	Rarely	Rarely	**Built for vape shops**
Google & review help	You do it	Extra service	Extra service	**Maps, reviews, monthly report**
Check-up vs competitors	No	Agency SEO audit R10,000 – R31,000	Sometimes	**Health Check R1,800**

Prices for entry stores, agency packages, maintenance and Shopify come from ProCompare, 'The real cost of an e-commerce website in SA'. Other cells are our own view.

Our rating (our own view, out of 10)

	DIY builder	Typical agency	Freelancer	WebRift
Price	7	3	6	9
Speed	5	4	5	9
Vape fit	3	3	4	9
Support	3	8	5	7
Flexibility	8	9	7	6
OVERALL	**5.2 / 10**	**5.4 / 10**	**5.4 / 10**	**8.0 / 10**

We scored ourselves, so treat this as a starting point, not an independent review. Agencies win on support and flexibility for big projects; WebRift wins on price, speed and vape-specific tools for small shops.

How We Deliver

From first message to a live shop: what happens, and what we need from you

1

DAY 0

Order and deposit

Pick a pack, pay the 50% deposit (or first of 3 instalments).

2

DAY 1–2

Shop questionnaire

We collect logo, photos, product list, hours and WhatsApp number.

3

DAY 3–7

Build

We build the site and tools and send you a preview link.

4

DAY 7–10

Launch

One round of changes, then we go live and set up Google and profiles.

5

MONTH 2+

Care plan

Free edits, support and a monthly report.

What we need from the shop

YOU PROVIDE

- Logo (or we make a simple one)
- Product or price list in Excel, photos or a supplier sheet
- Opening hours and address
- WhatsApp number to take orders
- Access to the Google Business Profile, if one exists
- Photos of the shop and best sellers
- A decision-maker who can approve within 48 hours

YOU RECEIVE

- A live, mobile-friendly site on the shop's own domain
- Business email (e.g. info@yourshop.co.za)
- Google Maps and profile tidied up
- A short how-to video for staff
- Written list of what is included
- Support by WhatsApp from day one
- First free edits month starts at launch

Timelines are our targets for a shop that sends its material promptly. Vape shops need an age-check test before launch, so allow a little extra time for the 18+ flow.

WebRift Business Outlook

How this side hustle scores as a business (our own assessment)

Market demand	Most local shops need a better online presence, and 60%+ of our targets are vape shops.	8
Competition	Many freelancers and agencies, but few focus on vape shops or monthly check-ups.	6
Profit margin	Low costs: software, AI usage and print only. Modelled net margin is above 80%.	9
Start-up cost	Needs a laptop, a phone and small monthly tool costs. No stock and no premises.	9.5
Recurring income	Most products carry a monthly fee, so income builds every month.	8.5
Scalability	Limited by build time. Templates and AI builders push it up.	6.5
Platform & legal risk	Vape law and platform rules can change. Higher score means safer.	5

OVERALL BUSINESS RATING **7.5 / 10**

Strengths

- Very low start-up cost and high margin
- Vape-specific tools few others offer
- Recurring monthly income
- Fast delivery with AI builders

Weaknesses

- One person's time limits growth
- Few case studies so far
- Vape law and platform rules are uncertain
- Small-shop clients can be slow payers

Opportunities

- Hundreds of local vape shops need a first website
- Upsell packs and monthly reports
- Partner with suppliers and wholesalers
- Extend to other regulated or niche retail

Threats

- Cheaper DIY tools and templates
- Vape ad and display ban becoming law
- WhatsApp or Meta rule changes
- Larger agencies adding vape features

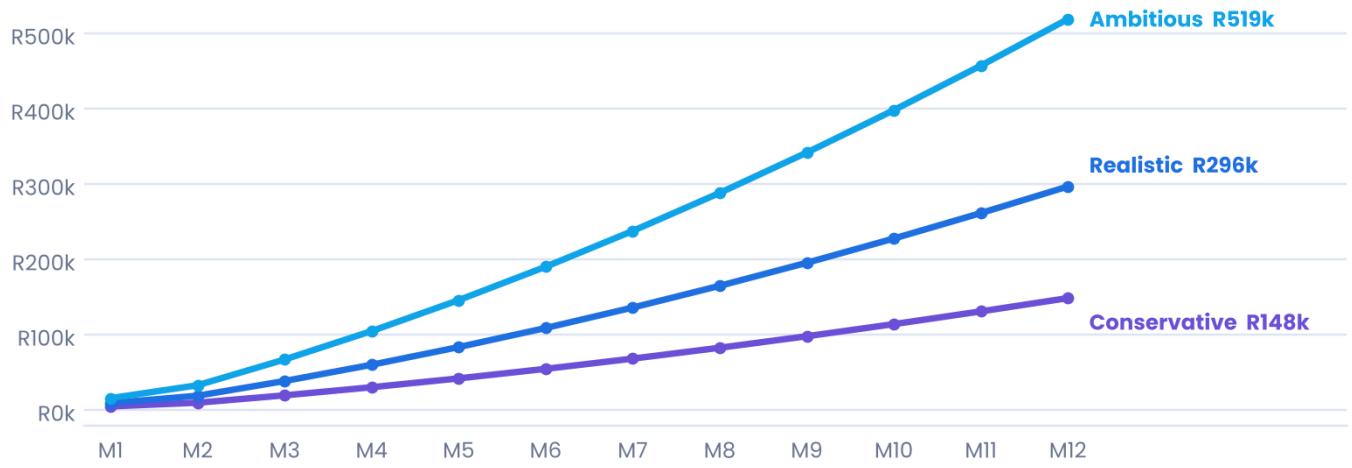

Assessment based on the market data in this catalogue and our own judgement. It is not independent advice.

Revenue Outlook: Year 1

Estimated income from WebRift as a side hustle, using the new packs and a 60%-vape client mix

CONSERVATIVE | 2 CLIENTS/MO	REALISTIC | 4 CLIENTS/MO	AMBITIOUS | 7 CLIENTS/MO
Year-1 revenue	Year-1 revenue	Year-1 revenue
R148,000	**R296,000**	**R519,000**
Net profit (est.)	Net profit (est.)	Net profit (est.)
R114,000	**R249,000**	**R452,000**
Month-12 MRR R8,300	Month-12 MRR R16,600	Month-12 MRR R29,100

Cumulative revenue, first 12 months

Assumed mix of every 10 new clients

2 x	Single quick win (age check, Maps, QR, photos…)	R1,500 once-off
3 x	Vape Starter	R4,000 once-off + R500/mo
2 x	Vape Pro	R5,500 once-off + R650/mo
1 x	Vape Complete	R7,000 once-off + R750/mo
1 x	Retail Starter	R2,200 once-off + R250/mo
1 x	Retail Online Shop	R4,000 once-off + R800/mo

Average first sale about R3,900; average monthly plan about R460 per client.

	CONSERVATIVE	REALISTIC	AMBITIOUS
New clients per month	2	4	7
Clients won in Year 1	22	44	77
Once-off project revenue	R86,000	R172,000	R302,000
Recurring revenue (12 months)	R54,000	R107,000	R188,000
Add-on upsells	R8,000	R17,000	R29,000
Total costs (overheads + tools)	R35,000	R47,000	R67,000
Estimated net profit	**R114,000**	**R249,000**	**R452,000**
Average net per month	**R9,500**	**R20,700**	**R37,600**
Build hours per month (full pace)	~28 hrs	~56 hrs	~98 hrs

Assumptions: first two months run at half pace. Every client keeps the monthly fee in their pack, with 4% monthly churn. 5% of past clients buy a R1,500 add-on each month. Costs are R1,800/mo overhead plus 8% of project revenue and 10% of recurring revenue for materials and API usage. About 14 hours per client (less if AI builds most of it). Your own time is not costed. Estimates, not guarantees.

Revenue Mix, Costs & Plan

What the Realistic scenario looks like month by month

Realistic scenario: monthly revenue mix

BREAK-EVEN

1 small sale / month

One R1,500 sale covers a month of overheads.

RECURRING SHARE

36% of revenue

Rises every month and survives slow sales periods.

NET MARGIN

84%

Low hard costs: software, API usage and print only.

NET PER BUILD HOUR

~R404

Based on ~14 hours of work per client.

Monthly running costs (estimate)

Domain, hosting & Netlify	R250
Automation platform (Make.com / n8n)	R450
Design tools (Canva / Figma)	R300
AI / API usage	R250
Mobile data & phone	R350
Print samples & travel	R200
Total (rounded to model)	**R1,800**

Tool prices change; check current plans before committing.

Risks to plan for

- Vape law: the Control Bill would ban vape ads and displays, so keep our tools as the shop's own pages.
- Platform rules: WhatsApp and Meta can restrict vape content. Never use the WhatsApp catalogue or API for vape.
- Retainer churn: clients cancel if they see no results, so send a monthly proof report.
- Capacity: the Ambitious case needs ~98 build hours a month, so use templates and AI builders.
- Late payments: always take the 50% deposit first.

90-day launch plan

WEEKS 1–2

Build the Website Storefront (#1, vape edition) and 18+ Age Check (#2) as re-skinnable templates with AI. Launch Maps (#7) and QR stands (#10) as quick wins.

WEEKS 3–6

Offer 20 local vape shops a free sample Health Check, then a Vape Starter or a single quick win. Collect two testimonials.

WEEKS 7–12

Upsell Vape Pro and Vape Complete (finders, loyalty, reviews, stock). Build each automation once and reuse it.

Price Decision Sheet (1 of 2)

For you and your marketer: write your final prices in the right-hand column (page 2 has the packs)

Monthly market low / average / high for each item is on its product card. Average = midpoint of low and high. Vape-special prices (#1 to #6) are our estimates, so check them against the market before you commit.

Price Decision Sheet (2 of 2)

Pack prices, and the questions to settle with your marketer

PACK	SETUP	MONTHLY	YEAR 1	YOUR SETUP	YOUR MONTHLY
Vape Starter	R4,000	R500/mo	R10,000		
Vape Pro	R5,500	R650/mo	R13,300		
Vape Complete	R7,000	R750/mo	R16,000		
Retail Starter	R2,200	R250/mo	R5,200		
Retail Online Shop	R4,000	R800/mo	R13,600		
Repeat Combo	R2,900	R350/mo	R7,100		

Pack discounts

PACK	DISCOUNT ONCE-OFF	DISCOUNT MONTHLY	YOUR DISCOUNT
Vape Starter	40%	35%	
Vape Pro	61%	58%	
Vape Complete	62%	74%	
Retail Starter	56%	43%	
Retail Online Shop	58%	57%	
Repeat Combo	23%	22%	

Optional extras

SERVICE	AVERAGE	SUGGESTED	YOUR PRICE
WhatsApp Booking Engine	R5,250	R4,500 + R350/mo	
Short-Form Social Videos	R2,100	R1,900	
In-Store TV Menu Board	R3,750	R3,500 + R350/mo	
In-Store Wi-Fi Data Capture	R2,500	R2,300	

Questions to settle with your marketer

- Are the single-item prices right (Storefront R3,500 + R450/mo, vape edition +R700)? Packs deliberately sit far below them.
- Do we keep the 18+ Age Check at R600 separately, or show it inside the pack at full value?
- Which pack do we lead with for vape shops: Vape Starter or Vape Pro? Is the Repeat Combo sold on its own or only as an add-on?
- Do we offer 2 months free on prepaid monthly plans, or a smaller discount?
- Do prices go on the public catalogue, or only on request?

What We Recommend

How I would price and sell, based on the market data

1. Keep setup low and earn on the monthly

Small shops resist big upfront costs. Our pack setups are R2,200 to R7,000 (3 instalments available), and the monthly plan (R250 to R800) is where the revenue builds. Compare with R6,000 to R25,000 for a basic online store (ProCompare).

2. Use the Health Check as the door-opener

Offer a free sample report, or sell it at R1,800 (free inside Vape Complete and Retail Online Shop). Agencies charge R10,000+ for a technical SEO audit, so R1,800 for a local snapshot is easy to defend.

3. Charge a small fee for the 18+ check

R600 covers real set-up and testing, plus R80 a month if the shop wants consent records kept. Show its value inside each vape pack so owners see it isn't a piece of paper. Remember it is a self-declaration, not proof of age.

4. Photography is cheaper than the market

Studio photographers charge about R200 to R280 per product for 11 to 25 products (ProCompare). R2,500 for up to 20 products plus shop photos is good value and still profitable on a phone shoot.

5. Push packs and the 6-month minimum

Packs give shops a lower price and free edits, and give you steady income. Keep the 6-month minimum, offer 2 months free for 12 months prepaid, and remember that domain and email are the only yearly bills, paid at cost.

6. Keep vape tools safe

Use our own web pages and plain chat links. Skip the WhatsApp catalogue, AI bots on the Business API and ad services for vape shops. Re-check the Bill and the platform policies every quarter.

Sales Cheat Sheet

For you and your partner: how to pitch, and what to say when they push back

The 30-second pitch

"We help local shops get found on Google and take orders on WhatsApp. For vape shops we build a simple website with a coil and flavour finder, an age check and a loyalty card. A pack's setup starts from R2,200 and you can pay it in three instalments, then a small monthly fee covers hosting, support and free edits. Can I send you a free Health Check that shows how you compare with the shops around you?"

Objections and answers

"It's too expensive."
Start with Vape Starter or Retail Starter: setup from R2,200, or 3 instalments of about R730 to R1,330. Compare it with R6,000 to R25,000 for a basic online store elsewhere.

"I don't want a monthly fee."
The monthly pays for hosting, security, support and up to 5 free edits. Edits alone are R120 each otherwise. There is a 6-month minimum, then month to month.

"I already have a Facebook page."
Great, we keep it. A page can't take structured orders, show stock or run an age check, and vape ad rules are tightening. Your own site and Google profile are yours.

"Can I just do it myself?"
You can, and DIY builders cost about R580 a month plus your time. We save the time and add vape-specific tools. Offer the free Health Check as a no-risk first step.

"What if I cancel?"
Monthly services stop at the end of the notice month. Once-off items stay yours.

"Is the age check legal proof?"
No. It is a self-declaration plus reminders. The shop still checks ID at collection or delivery, and should confirm wording with its attorney.

Which pack to lead with

Vape shop, first website	Vape Starter. Upsell to Vape Pro after the first month.
Vape shop, busy counter	Vape Pro: finders save staff time and click-and-collect tidies orders.
Owner who can't be in store	Vape Complete: reports, reviews and stock control.
Non-vape shop, tight budget	Retail Starter, then Retail Online Shop. Add the Repeat Combo to any pack.
